ENGLISH TRANSLATION OF THE TITLE AND ABSTRACT OF CN1465597A

Title:

A fusion protein comprising a soluble TNF II receptor and an interleukin I receptor antagonist (IL1Ra), a method of producing the fusion protein, and a pharmaceutical composition.

Abstract:

This invention relates to a fusion protein comprising a soluble TNF II receptor, p75, and an interleukin I receptor antagonist, IL1Ra; a nucleic acid sequence encoding the fusion protein; a method of producing the fusion protein; and a pharmaceutical composition comprising the fusion protein.
